## Observation/Participation Days

### **Requirements:**

Observation days are extremely valuable in the development of making students job-ready in ten (10) weeks. Each student must shadow a practicing dental assistant (instructor) for one (1), four (4) hour day to experience what an actual day as a dental assistant requires. These observation days are best scheduled between the 1st – 3rd classes, but must be completed by the end of the course (class 10). Students will also be required to complete one (1), eight (8) hour participation day to ensure the students ability to perform practical dental assisting skills. These participation days will be scheduled between the 5th – 10th classes.

### **Policy:**

Observation and Participation Days are graded. The Observation Day is a four-hour week-day session and is worth 15 points. The Participation Day is an eight-hour week-day session and is worth 40 points.

If the student is unable to attend, the student must contact the instructor or the ADAA Regional Manager and provide written documentation (ex: letter from employer). Observation and Participation Days must be completed prior to the final day of class and must be scheduled with the instructor during designated time slots. During these days, the student must complete all tasks on the Observation/Participation Day Forms and submit all necessary documents to the instructor for grading. Students are expected to follow office policies when attending these days (ex: dress code, cell phone policies, etc.).

### **Scheduling:**

Observation and Participation Days must be scheduled in accordance with the ADAA provided scheduling form presented by the instructor on the first day of class. If the student is unable to attend the scheduled time, he/she must contact the instructor at least 24 hours prior to scheduled time to reschedule. The student must call the office to cancel/reschedule and may only reschedule one time. Both student and instructor must provide flexibility to work with one another's schedules.

In case of an emergency and not within the 24-hour notice period, the student must contact the instructor and provide written documentation at the following class. If a student is a "no show", they will automatically receive a zero for their grade.

## Grading System

## Absences

It is highly recommended that the student not be absent for any of the classes due to the concentrated learning structure of the course. Except for family emergencies and serious illness, students should plan on attending all classes. If a student misses more than 3 classes, the student will be terminated from the course. Refer to refund policy to determine if a refund applies.

### Missed Class/Student Makeup Work

#### **Policy:**

The student is responsible for inquiring, completing, and turning in all coursework missed during time of absence.

#### **Instructions for Makeup Work:**

Before returning to class, the student is to review the missed material in MyAccount, which contains all homework and lecture information. The student must also listen to corresponding videos located on his/her MyAccount portal.

#### **Exams:**

If a student misses an exam, the student must abide by the following:

- The student must coordinate a time with their instructor during the week. The student must be able to schedule a time that is convenient for the instructor. The instructor can use their discretion to decide if the student will make up the exam during the week or in the next class day.
- If the student and instructor are unable to schedule a makeup exam appointment during the week, the student must take the exam at the following class. The student will take the written portion at the beginning of lecture and practical portions during lunch.
- If the exam is not made up by the end of the class day immediately following the day of exam, the student will receive a zero for that exam.
- The student is responsible for scheduling a makeup appointment with their instructor. They must do this by contacting the office and speaking with an instructor. Both student and instructor need to offer flexibility to coordinate what is convenient for both student and instructor schedules.
